## healthcare4every1 Campaign Endorsement

healthcare4every1 is a statewide advocacy campaign coordinated by the Universal Health Care Foundation of Connecticut. The goal of the campaign is to organize an active, vibrant and diverse network of concerned residents and organizations in order to build public and political support to achieve universal health care in Connecticut. We are seeking your organization's endorsement of the campaign.

Supporters of the healthcare4every1 campaign also endorse the Institute of Medicine's principles for universal health care:

- § Health care coverage should be universal — it should cover everyone.
- § Health care coverage should be continuous, portable from job to job, and between employed and unemployed status.
- § Health care coverage should be affordable, especially to low-income individuals and families.
- § The health insurance strategy should be affordable and sustainable for society.
- § Health insurance should enhance health and well-being by promoting access to high-quality care that is effective, efficient, safe, timely, patient-centered and equitable.

We would also request that endorsers of the campaign share the campaign Web site address with their members: [www.healthcare4every1.org](http://www.healthcare4every1.org). The Web site is collecting stories from people experiencing problems with access to health care in Connecticut as well as encouraging individuals to join the campaign.

Organizations endorsing the healthcare4every1 campaign will be listed on the website, with a link to their website, if requested. In addition, a Universal Health Care Foundation staff member would be happy to speak at an upcoming board meeting, committee meeting or conference of your organization. Finally, the Foundation will publicize this endorsement as part of our promotional efforts or to enlist other organizations to join the campaign.

We hope you will join with us to make quality, affordable health care available to everyone in Connecticut!

healthcare4every1 Campaign Endorsement Form

The undersigned organization endorses the healthcare4every1 campaign.

We agree with the Institute of Medicine's principles for universal health care:

- § Health care coverage should be universal — it should cover everyone.
- § Health care coverage should be continuous, portable from job to job, and between employed and unemployed status.
- § Health care coverage should be affordable, especially to low-income individuals and families.
- § The health insurance strategy should be affordable and sustainable for society.
- § Health insurance should enhance health and well-being by promoting access to high-quality care that is effective, efficient, safe, timely, patient-centered and equitable.

We further agree:

- § To have our organization's name listed on the healthcare4every1.org Web site.
- § To have the Foundation publicize this endorsement.
